ALLOWANCE

Drawings

1. The drawings filed on February 5, 2004 are accepted, however, Figures 7b and 7c are informal (i.e., hand-drawn), please submit formal drawings (see PTO-37, 8c). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

2. Claims 1-8 and 11-30 are allowed and re-numbered as 1-28.

3. The following is an examiner's statement of reasons for allowance:

The instant invention defines a method and a device enabling a person to visualize images as disclosed in independent claims 1 and 23. The claimed invention distinguishes over the prior art by the manner in which a subset of a full image is encoded into the at least one polyphonic musical, the step of encoding a subset of a full image comprising *recognizing and extracting predetermined features from the image, and encoding said predetermined features into at least one polyphonic musical sequence*. The claimed combination allows for improving a method of visualizing images through some external means and such a system might enable blind persons to "see" or at least assimilate some amount of visual information.

Systems based on echo location and on touch are conventional. However, there is no available system permitting optical images to be analyzed in detail. The prior art of record fails to teach encoding spatial information relating to at least one feature contained within an image

into the form at least one polyphonic musical sequence and playing the at least one polyphonic musical sequence to the person wherein a subset of a full image comprising *recognizing and extracting predetermined features from the image, and encoding said predetermined features into at least one polyphonic musical sequence*. These elements in combination with all of the other elements of the claims are not taught or fairly suggested in the prior art of record. The dependent claims 2-8, 11-22, 24-28 are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
